High Temp Undercounter Dishwasher And Glasswasher

WARNINGS:

- Plumbing connections must be made by a qualified service company who will comply with all available Federal, State, and Local Health, Plumbing and Safety codes.
- CMA recommends utilizing a water softening system to maintain water hardness measurements of 3.5 gpg (grains per gallon) or less. This will assure maximum results and optimum operation of the dishmachine.

Summary Specifications: UC-65e

Specified unit will be a CMA model UC65e-M2 undercounter high temperature sanitizing dishmachine with built-in booster heater. Features include large 14-1/2" door opening clearance, standard liquid detergent and rinse-aid dispensing pumps, top, side and rear panels. Unit has standard pump drain, "Safe-T-Temp" feature to ensure proper 180OF final rinse temperature and stainless steel rinse arms with removable end caps for easy cleaning

Advisory: CMA does NOT endorse "Tankless On-Demand" water heaters for use on CMA Dishmachine products. CMA DOES endorse, and highly recommends, the standard "tank" style water heaters, sized properly to handle each particular facility with their water heating requirements.
